ADVERTISING
Has created many a new business;
Has enlarged many an old business;
Has revived many a dull business;
Has rescued many a lost business;
Has saved many a failing business;
Has preserved many a large business;
And insures success in any business

GIRARD'S SECRET.—Stephen Girard used to say in his old age "I have always considered advertising liberally and long to be the great medium of success in business, and the prelude to wealth. And I have made it an invariable rule to advertise in dull times as well as the busiest, long experience having taught me that money thus spent is well laid out as by keeping my business continually before the public it has secured many sales that otherwise would have been lost"

ADVERTISE YOUR BUSINESS
KEEP YOUR NAME BEFORE THE PUBLIC
JUDICIOUS ADVERTISING INSURES A FORTUNE
IF BUSINESS IS DULL ADVERTISE
IF BUSINESS IS BRISK ADVERTISE
The man who didn't believe in advertising has gone into partnership with the sheriff, and that sheriff [illegible] the advertising jy10d3m

OREGON
Business Directory!

THE UNDERSIGNED WILL COMMENCE SOLICITING for a
Business Directory of the State
OF OREGON in a few days, and to make it successful respectfully request the co-operation of all persons interested in the welfare of the country. The State has reached that position when a yearly summary of her progress is necessary, hence the value of a work which [illegible], in a condensed form
COMBINE ALL MATTERS OF PUBLIC INTEREST
The work in contemplation will embrace a
General Sketch of the State,
PHYSICAL ASPECTS,
GEOLOGY,
CLIMATOLOGY
BOTANY
ZOOLOGY
COMMERCE
MANUFACTURES
SOCIETIES,
PUBLIC BUILDINGS
PRODUCTIONS,
and all other subjects on which information is required
The work will be illustrated with sketches of some of the leading prominent scenery of the State, and its compilation will be under the charge of J MORTIMER MURPHY, whose recent work on Washington Territory has been highly commended by the press and public
A BUSINESS DIRECTORY OF EACH TOWN AND CITY WILL BE COMPLETE;
so that with sketches of each place should make it valuable to the Merchant, Farmer and Mechanic.
AS AN ADVERTISING MEDIUM it will be THE BEST yet introduced in the State as it will be of much importance that it will always be retained in a prominent position for reference
THE RATE OF ADVERTISING will be as follows
ONE PAGE $20.
HALF PAGE 10
CARD 5
Advertisers taking one page will receive a copy of the work gratis
PRICE of work will be $2 50
The book will be distributed on every route and at every public place in the country

DISPATCHES TO THE OREGONIAN

EASTERN DATES TO NOVEMBER 11

EASTERN STATES.

Particulars of the Fire

BOSTON Nov 11 —All the property along the line of Washington street which is in imminent danger would have been saved had not the explosion given the flames a fresh encouragement

5 A M —The fire is now believed to be under good control and unless a very strong wind should spring up, no more fresh fires are apprehended

6 A M —The fire is now believed to be under control, being kept in the block between Summer and Avon streets

A fireman has just fallen off the top of a building on Summer street

The gas was only shut off from a portion of the city. Perfect order was maintained in the streets

There were three explosions of gas at half past three o'clock

The people begin to be relieved from the terrible excitement of uncertainty regarding the spread of the fire

NEW YORK, Nov 11 —It is stated that the only insurance companies here which have suspended, are the International, Relief, Corn Exchange and Humboldt

BOSTON, Nov 11 —Our insurance companies will be able to pay an average of about fifty per cent on their risks. Capitalists are coming forward so liberally with offers of funds that there are some prospects of their going on yet. Their average losses are in the neighborhood of $500 000. The savings banks are all secure

BOSTON, Nov 11 —The number of firms and business houses burned out is 930, the number of dwellings and lodging houses is 60

BOSTON, Nov 11 —The funds of the Sub Treasury were removed to day from the Exchange to the Custom House

The Postoffice is temporarily located at Faneuil Hall. Postmaster Burt does everything possible under the circumstances to expedite the distribution of mail matter

Gilmore has placed the Coliseum at the disposal of parties wanting places to store goods

The inner safe of the Firemen's Bank, in regard to which there was considerable anxiety, has been opened and its contents found safe. The safe fell from a second story and broke a hole in the side, and depositors' trunks of valuable contents are all destroyed. The bank will probably lose nothing. The vaults of other banks are safe. The books of the Hide and Leather Bank are, however, destroyed. It is impossible to give anything like an accurate or approximate report

The *World* says some of the largest insurance companies have had no time to look over their policies. At an informal meeting of leading insurance officers to day, the statement was made that the losses will be nearly all paid in full

At a meeting of the Citizens Relief Committee to day, Mayor Gaston read dispatches from Governor Geary, of Pennsylvania, the Mayors of Cincinnati Chicago, Indianapolis, Providence, and other cities, tendering sympathy and aid

A committee of ladies has been formed especially to look after the thousands of sewing girls thrown out of employment

Preparations are being urged for making new street lines on the burnt district, also for the erection of a Merchants Exchange building

A committee is appointed to ask the General Government to purchase the burned over lot adjoining the new Postoffice for the purpose of enlarging that building, also to request Massachusetts Senators and Representatives in Congress to secure the passage of an act allowing the same drawback on building material as was allowed Portland and Chicago

Special Session Wanted.

BOSTON, Nov 11 —A committee of twenty citizens has been appointed to request Governor Washburne to call a special session of the Legislature to authorize the city of Boston to issue a sufficient amount of 7 per cent bonds to aid in rebuilding the burnt district

Missing.

BOSTON, Nov 11 —Joseph Burr, of Dorchester, and Geo S Smith, of Neponset, came to the city Saturday, to see the fire, and have not been seen since. It is feared they were killed by falling walls

N E Abbott, of Charleston, a fireman, is missing

In Darkness.

BOSTON, Nov 11 —The city is in darkness to night, owing to disconnection of the main gas pipes from the burnt district

Precautionary.

BOSTON, Nov 11 —An efficient military police guard is on duty. All fears of the rekindling of the flames are over

Insurance Companies Solvent.

BOSTON, Nov 11 —The following insurance companies doing business in Boston are perfectly solvent and able to meet all obligations in full: Bangor and Eastern, Bangor, Me. Williamsburg, Ætna, Hope and Market, New York, Triumph, Cincinnati, St Paul, St. Paul, Minn

Printing Lighting.

BOSTON Nov 11 —The publishing and printing of newspapers and all other necessary work is done to night by lamp and candle light

The Losses.

BOSTON, Nov 11 —Among those burned out by gas explosion this morning, are James J Smith & Co, R H Storrs & Co., on Summer street, Shreve, Crump & Howe, corner Summer and Washington streets. Wheeler & Wilson, in the same building, and Thompson's dry goods store, on Washington street, slightly damaged. The building in Central Court, occupied by Crosby, Morse & Foss, whose front is on Washington was burned down. The Parker House is damaged a little. The store of Palmer, Jacobs & Co, on Washington street, is injured by water

Incendiary

BOSTON, Nov 11 —James Tulley was arrested by a soldier, early this morning while setting fire to a building on Milk street.

More about Insurance

NEW YORK, Nov 11 —The great calamity in Boston is the main topic of discussion to day in financial and trade circles. Many conservative underwriters place the loss at $75 000 000 and the insurance $50 000 000, of which $15,000 000 to $20 000,000 are borne by British companies, in which, since the Chicago fire, many American companies have re insured

Going to Work Again

NEW YORK, Nov 11 —The knowledge of the fact that the Government is ready to throw all its power against the panic caused by this enormous loss by fire has had less effect than anticipated. Values of merchandise have been advanced from 7 to 20 per cent. Boston men are already here making solicitations for accommodations and for tents to be erected on Boston Common for the sale of goods

Boston Insurance Companies.

NEW YORK Nov. 11 —The condition of the Boston Insurance companies has involved much doubt, though those familiar with their conservative policy believe they will not all succumb

Prices Advanced

NEW YORK, Nov 11 —The destruction of 11,000 000 pounds of wool, a stock of 5,000 000 suits of clothing and almost the entire supply of wool and clothing for eastern Canada and the Northwest has caused an advance here of 7 cents per pound in the price of wool while heavy domestic woolens advanced over 30 cts per yard. Blankets flannels and shawls have advanced 10 per cent. Coffees and other articles are excited. Two or three large grinders and others in Boston lost in roasting 21 000 bags from the market. Some 25 000 half chests of tea largely Japanese and Oolong which were destroyed, measurably relieve the market here

Financial.

NEW YORK, Nov 11 —The condition of Wall street turns upon the action of the Treasury Department, whose programme is not yet decided upon. It is stated however that greenbacks deposited with banks by the Treasury early in October will be allowed to remain for the present. The money market is stringent—advancing from 7 per cent per annum to ¼ per cent per day, with closing business at ⅛ per cent. Sterling dull and weak, 8⅜ prime sixty days and 10⅜ for sight. Fears are entertained of a liberal supply of insurance bills on London

The effect on the Stock Exchange was very marked at the opening, when prices were two to eight per cent below Saturday's prices, which was followed by a further decline of one to three per cent before first call. The market subsequently rallied to from one to five per cent, but reached an average of one per cent again and closed heavy

A Meeting of Merchants.

NEW YORK, Nov 11 —A crowded meeting of merchants, bankers and others, was held in the Chamber of Commerce this afternoon, and adopted resolutions tendering sympathy to the merchants of Boston and all sufferers by the fire, and proffering such cooperation in measures of relief as circumstances and emergencies of the case may demand. It appointed a committee to consider what measures, if any, it behooves the community to adopt in order to alleviate the disabilities likely to result from the sudden destruction of property books and papers of hundreds of mercantile firms. Resolutions were adopted condemning Mansard roofs and recommending the establishment of a Board of Engineers to be invested with legal authority in case of fire, to blow up buildings whenever in the judgment of the heads of fire departments, the flames get beyond control

Strengthening the Guard

BOSTON, Nov 11 —A battalion has been added to the military guard in the burning district, which now numbers 1,600. Attempts at robbery and incendiarism will be summarily dealt with

The streets are almost impassable from crowds in the vicinity

Banks

Only three of the seven banks burned out have failed. They will settle at Clearing House to day, the Shawmut, Fireman's and North America being unable to get at their vaults. The Mount Vernon Hide and Leather, and Everett Banks are saved, but have lost their valuables

Chicago Leads the Van

CHICAGO Nov 11 —A meeting of citizens this afternoon voted $100 000 for relief to Boston sufferers, and appointed a committee, headed by Robert Laird Collier, to convey the sum to Boston. They leave this evening with the cash

No Panic

Private advices received here from New York state that the fears of a panic are removed

Offered Aid—Stocks—Failures

ST LOUIS, Nov. 11.—A meeting of citizens held at the Chamber of Commerce to day adopted resolutions of sympathy with Boston, and proffered material assistance if necessary

Stocks were panicky all the morning. Prices are 5 and 10 per cent. lower

Suspensions are reported of S V White, Pillett, Perry & Co, H R Wilcox, and R J Kimball & Co, on which account stocks have been sold out under the rule. The market is now steadier. The worst seems over

PHILADELPHIA, Nov 11 —President Grant, Generals Sherman Sheridan, Potter, Ingalls Gilmore, Forster, Commodore Stembel, Secretary Robeson, ex Governor Curtin and militia officers of adjoining States, are in the city to attend the funeral of General Meade

BRITISH COLUMBIA

VICTORIA Nov 11 —The first snow of the season fell on Saturday

A man named William Barton was blown to atoms by the premature discharge of a blast on Thursday last, in the Newcastle pit, Nanaimo coal mines. He leaves a wife

William Adams, ordinary seaman on board Her Majesty's ship *Scout*, was instantly killed by falling from the main yard to the deck below

Mac McMillan was on Saturday elected Mayor by 20 majority

It is stated that a real diamond field has been discovered near Hat Creek. A large stone found there will be sent to San Francisco, and if it turns out to be as pure a diamond as is supposed, it will create a great excitement in that vicinity

VICTORIA, Nov. 6 —Captain James Cooper, of this city, has received mail advices of his appointment as agent in this Province of the Department of Marine and Fisheries, and Inspector of Lights and Steamboats

The *Princess Royal* spoke the bark *Lapwing* near Staten Island, 62 days out, bound from Hartlepool, England, to San Francisco

CALIFORNIA.

From San Francisco

SAN FRANCISCO, Nov 12 —Rain commenced falling about 12 o'clock last night and continues lightly

The official count of the Board of Supervisors shows Grant's majority to be 605, Clayton's majority, 1,056

The extension of the new wharf and warehouse of the P M S S Co is being pushed rapidly

Smith, a passenger and a girl sixteen years of age, were arrested on the *John L. Stephens*. The man is accused of abducting her from Portland

Mrs M J Carson tried to pour coal oil into a lighted lamp and was severely burned

Senator Tompkins, of Oakland, is ill, and it is feared he cannot recover

The fire in the coal yard of the P M S S Co's wharf is still smouldering, but under control

The total expenses of the election in this city was $6,521

Alonzo Kirkland confesses to beating and robbing the boy John McCloskey, last week. The boy will probably not recover

Senator Corbett of Oregon, is in the city en route to Washington.

Riley, the Co jail trusty, who aided the Brothertons to escape, will be to night brought before the Police Court for examination

The argument in the case of McDermott vs Raymond & Ely Mining Co, will be made at 7 P M, in the 12th District Court

It is still raining quite hard

The stock market this morning is reported a little off

There is much anxiety about the Raymond & Ely case

The Harbor Commissioners held a meeting at 11 A M. Four of the wharfingers implicated in the alleged frauds. All declined to answer questions, saying they first desired to see counsel, W H L Barnes, and the Board adjourned till Thursday night to give them a chance to do so

L C Gallaton of the Commercial street wharf, was removed, and Dennis Coyn appointed. Capt O Riley was appointed wharfinger of Mission street wharf

AN ENTERPRISING DAMSEL.—In this city lives a young lady seemingly delicate, but although *petite* in form and figure, is abundantly endowed with nerve and energy. Fond to a passion of the grand in nature, she has scaled on foot the highest peaks of the Cottonwoods, and explored the cavernous recesses of the deepest mines. We have known her, on several occasions, when prospecting on foot, with staff in hand, the tall peaks of the Wasatch, to compel her male escort first to cry halt. Our fair prospectress being at Alta a day or two since, saw for the first time in operation the wire suspension tramway just completed by the Vallejo Company, and her masculine escort proposed to her in jest to take a ride up the wire cable to the mine. She promptly accepted the invitation, when our male friend, growing a little nervous, suggested difficulties in the way of the trip, but failed to dissuade her from attempting it. The tramway is 2 380 feet long, rises at an angle of about twenty degrees, and the cable is suspended on stanchions forty feet high. There were not other carriages than ore buckets, and in one of these which are suspended six feet below the cable, our heroine, undaunted and alone took passage and made the ascent without mishap or serious inconvenience although the swaying of the wire between the stanchions is calculated to create the sensation of sea sickness. Quite a crowd gathered, and to those a short distance off, to whom the wire was invisible it appeared as if our fair friend was sailing through mid air —*Salt Lake Herald*

The school population of Chicago is 88 000, but of this number only 28 000 or only thirty-three per cent are enrolled. Making a very liberal estimate of the number being educated in private schools and colleges, the conclusion is therefore inevitable that fifty per cent of all the children of Chicago are growing up in the densest ignorance.

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN]

EASTERN DATES TO NOVEMBER 12

Stringent Measures

BOSTON Nov 12 —The city is perfectly quiet. Two hundred and fifty mounted soldiers patrol the streets and no one not having official authority from the commandant is permitted to pass the lines. One man who attempted to enter a store on Winter street refused to leave after being ordered away. He attempted to run and was shot by one of the guards and severely wounded

Arrangements for keeping under the fire are now perfect. Unless some change in the weather occurs to cause another outbreak in unexpected quarters there will probably be no more serious damage to life or property

At points where persons are known to have been burned, the ruins are being cooled off with water preparatory to digging out the corpses of the victims

On the south side of Washington street, where the spread of the fire has most been dreaded, hose are extended ready for emergencies

Immense piles of coal at Russia wharf, about five hundred tons, are still on fire, and will probably burn several days

The city authorities has granted to dry goods merchants the privilege of using the Commons as a repository of such of their property as is saved, and to erect shanties and other structures temporarily.

Shocking Rumor.

BOSTON, Nov 12.—It is rumored that last night a man attempted to set fire to the gas house near Charlestown bridge, and was seized by the infuriated crowd and unceremoniously hanged to a lamp post

A Terrible Death.

BOSTON, Nov 12 —Three men were buried in the ruins of a falling wall, on Washington street, leaving their heads visible. A few of the crowd attempted to rescue them, but were unsuccessful, and in a few minutes the remaining portion of the wall fell and buried them out of sight

Incendiarism.

BOSTON, Nov 12 —Six men were arrested this morning in the northern part of the city, a mile or two from the burned district, caught in the act of firing buildings

The Situation

NEW YORK, Nov. 12 —The *World* says the great losses in leather and wool in the Boston fire will affect the industry of which they are the raw materials but very slightly. The derangement will be but very temporary. Few of our wool and leather merchants are directly affected by the destruction in our sister city, and most of those who are will be abundantly able to meet their losses

Statement of Insurance Losses.

PHILADELPHIA, Nov. 12 —The following is a statement of the actual losses of the Philadelphia companies by the Boston fire: North American, $100 000, Union National, $34 000, Delaware Mutual $100,000, Fame, $20,000, Franklin, $500,000, Girard, $5,000 [$500,000 ?], Pennsylvania $300 000, State of Pennsylvania, $100,000, American, $300,000

WORCESTER, Nov 12.—The People's Insurance Company of this city lost over half a million dollars by the Boston fire. The Directors have voted to call in the policies for cancellation and discontinuance of the business. The First National Insurance Company lose $50,000, which will be raised by assessment. Bay State Insurance Co lose $160,000, and have suspended for the present. Merchants' and Farmers' Mutual lose over $300 000, but will continue business. No other company loses heavily

CONDENSED TELEGRAMS.

From San Francisco.

SAN FRANCISCO, Nov. 12.—Wharfingers Callaghan, Fritsbroderon and Casey, are summoned to appear before the Harbor Commissioners to answer for misfeasance. An expert will be appointed to examine the books

An old man named John Parcell, was knocked down and robbed at Potero. The robbers got $3 50

Nicholson pavement in San Francisco streets in bad condition. Bulged up and broken in the center and impassable

The steamer *Pacific* will relieve the *Pelican* on the Humboldt route

Movement to assist Boston sufferers

The case of McDermott vs Raymond & Ely Mining Company, in the Twelfth District Court, excites great attention. Large crowd of stock people in court yesterday to hear the argument of the motion for perpetual injunction

The Chamber of Commerce held its monthly meeting yesterday. Principal business was the discussion of the law relating to shipping commissioners. The vacancy in the Chamber caused by the death of R B Swain, was filled by the election of N H Foster. D Emphsta and Howe were appointed delegates to the National Board of Trade. The President was requested to call a special meeting for to morrow on the question of relief for Boston

Sailed—British ship *Compadre*, Liverpool, British bark *Sea Otter*, Glasgow, British schooner *Margaret Tongate*, Victoria, Norwegian bark *Orestes*, Falmouth, American schooner *Uranus*, Esmeralda

Interior California.

A large excursion party at the invitation of the President of the Los Angeles and San Pedro Railway Company, visited the Wilmington breakwater yesterday. The breakwater is said to be strongly built. 4,700 lineal feet are completed, and 2,000 unfinished

It commenced snowing at Yreka at 11 o'clock on Monday, and continued till dark. Snow on the mountains 5 to 10 inches deep

UTAH.

SALT LAKE, Nov. 12 —The horse disease is reported in the city to day. Quite a large number of horses are sick. But draymen say it is not the Eastern epidemic

A new diamond excitement is believed to be the result of a scheme to sell Janion stock.

Alsatians in Virginia

WASHINGTON, October 21 —The advance guard of the large body of immigrants from Alsace and Lorraine who are to settle in the neighborhood of Alexandria have reached that city, and are now engaged in prospecting for favorite sites whereon to settle. Some time will be devoted by these immigrants to the inspection of the various tracts of land which are now in the market in that section of Virginia. They desire not less than 4,000 acres in a body, though they would prefer a much larger quantity, and will be governed by the price and location of the land. The colony now numbers about 200 families, and are skilled in arts, manufactures and farming. They are all from portions of France captured by the Prussians in the late war, and leave their native country for America rather than become Prussian subjects. They propose to form a joint stock, locate a town, and lay out farms, etc. Their purpose is to exclude all others from the colony but those who come with them for the term of five years. During that time no one of the colony will be authorized to dispose of any portion of lands purchased and embraced within their survey. If they can be suited in Virginia on good terms they say they can increase their colony to two thousand families without any trouble

The clamor for railway reform has began in Europe. Although sleeping cars have been an American institution for many years, no European State except Russia has adopted them. A London paper points to the fact that "half peopled America and barbarous Russia provide for travelers what cultivated southern and western Europe refuses them."

"Chemicocerebropathy" is the label which a Cincinnati physician winds three or four times round a new system of medical treatment of which he is the originator. He holds the brain personally responsible for all diseases of the system and posters it accordingly

PROCEEDINGS OF THE OREGON PRESBYTERY.

From the Oregon Statesman

The Presbytery of Oregon convened at Albany, Thursday evening, November 7, 1872, and was opened with prayer by Rev A L Lindsley, Moderator. J A Hanna was chosen temporary Clerk

MINISTERS PRESENT AND ABSENT

Revs E R Geary, W J Monteith, H H. Spaulding, R Robe, J A Hanna, J R Thompson, W R Stewart, John Rhea

The following Elders were present: William Templeton, C Goodchild, R K Warren, John Patterson, W P Abrams, T P Powers, T. M. Read, S Condit

Ministers absent: J S Reasoner, M. A Williams, F G Whitworth, G W Sloan, —— Weeks, T Crowl

INVITED TO SEATS IN THE PRESBYTERY.

Rev W R Stewart and S G Irvine, of the United Presbyterian Church, I Griffin and W. R. Butcher, of the Congregational Church, being present, were invited to sit as corresponding members

A CHURCH ADDED TO THE ROLL.

Rev W R Stewart presented a certificate of admission from the Presbytery of the United Presbyterian Church, which was accepted, and Mr Stewart's name was placed upon the roll of the Presbytery. Mr Stewart also presented a request from the United Presbyterian Church of Salem, to be received under the care of this Presbytery. The request was granted, and the name of the First Presbyterian Church of Salem was placed upon the roll

REPORT OF THE COMMISSIONER.

Rev R Robe, Commissioner to the late General Assembly, reported of his attendance, etc. The report was accepted and his fidelity approved

VISIT TO THE COLLEGE

Upon invitation of Prof R. K. Warren, the members of the Presbytery visited and witnessed the opening exercises of the school in the College Chapel

CONDITION OF THE ALBANY COLLEGE.

Dr Geary reported on the condition of the Albany Collegiate Institute, stating its present prosperity and cheering prospects, but that it was greatly in need of further endowment. The report was accepted and approved, and Dr. A. L. Lindsley was appointed Financial Agent to solicit on this coast funds for the endowment of the College

ADJOURNMENT TO SALEM

On Saturday at 11 30 o'clock the Presbytery adjourned to meet in the First Presbyterian Church of Salem at 3 o'clock P M. Presbytery convened as per adjournment, and its number increased by the addition of Brethren from Puget Sound.

COMMITTEE ON HOME MISSION

A Committee on Home Missions was appointed, consisting of Rev Monteith and Elders Abrams and Reed.

MINISTERIAL COURTESIES

Rev P S Knight, of the Congregational Church, Rev Stephen Bowers, of the M E. Church, and Rev Mr. Henderson, of Cumberland Presbyterian Church, were invited to sit in the Presbytery as corresponding members.

Mr Knight invited the members to visit his Cabinet of Natural Curiosities. The invitation was accepted

NEW RULES.

The Moderator, Rev Monteith, in the Chair, read a letter from the Secretary of the Board of Home Missions calling attention to certain new rules. Said letter and rules were referred to Special Committee on Missions

RESOLUTIONS.

The following was adopted

Resolved, That the action of the Moderator in announcing services commemorative of the Massacre of St. Bartholmew's eve, death of John Knox, and meeting of the first Presbytery in England, be approved; and that Drs. Lindsley, Geary and John Patterson be appointed a committee with full power to carry out the announcement

In order to furnish a correct history of the introduction of Presbyterianism on this coast—

Resolved, That a committee be appointed consisting of Dr Geary, R. Robe, J A Hanna and T B Powers, to prepare a brief history of the introduction of Presbyterianism within the bounds of this Presbytery, and continue the same down to the present time, and that each member of the Presbytery and Church Session be instructed to furnish the committee with statistics to enable them to carry out the spirit of the resolution

Dr. Aborn at San Francisco.

DR ABORN'S LABORATORY, CONSULTING AND Operating Apartments are now located at 218 Geary street, San Francisco, where he can be consulted personally or by letter. Medicines are carefully packed and shipped by express to all parts of the Pacific Coast and adjacent Territories. All letters or remittances, either by mail or express will be received, if add. with
DR ABORN,

Alabama Complications

Speaking of the claims to be adjusted between citizens and the Government of the United States in the distribution of the money awarded to the latter on the Alabama claims the St Paul Press says the next session of Congress will probably be attacked in force by the individual claimants of damages their agents and lobbyists and a powerful pressure will undoubtedly be brought to bear to induce the National Legislature to pass an act distributing the money paid by England as soon as it is received, among the various private claimants Conceding that after deducting as offsets the claims to be allowed for damages to British subjects during the war the balance of the judgment should be equitably divided among those who were damaged by her violation of neutrality, it is not improbable that many very nice and difficult question will arise during the controversy which is sure to spring up among the rival claimants, and that Congress may in despair of reaching a satisfactory conclusion remit the whole subject to the Court of Claims, to be disposed of according to the strict rules of of law Already there is a movement among the marine underwriters, who paid claims under their policies for losses inflicted by the Confederate cruisers, for reimbursement under the well known legal rule that the underwriter, after having satisfied the claim of his insured party, is the legitimate successor, to the extent of his payment, of all the rights and claims of the owner of the property insured.

Under ordinary circumstances this disposition of the money would be the obvious one, and one which the Court of Claims if the matter is transferred to that tribunal, will doubtless decree But a good many merchants whose losses the insurance companies have paid, object to it on the ground that it will be paying the underwriters a second time for a single loss These gentlemen argue and with a great deal of plausibility, that the heavy war premiums charged on all the marine risks during the war more than covered the losses paid by the underwriters, and that these risks having been assumed as a business operation, in the regular course of business, claims for losses under them cannot be considered as privileged. A reimbursement would more than double the profits of marine insurance during war times, and divert the award from proper to improper channels It is claimed that the merchants who paid the heavy war premiums rather than the insurance companies, should recover the damages

If this equitable argument should have influence with Congress, it might be still further urged that the merchants who paid the premiums are not the real parties damaged but the people who bought and consumed the goods insured, they having paid the enhanced premiums in the shape of higher freights heavier profits and advanced prices generally

About Fuel

The return of winter suggests the propriety of a discussion of the question of fuel. We believe much can be said upon that subject, that it would be profitable for the city of Portland and some other points in the State to heed, the general outline of which we propose to give

We live in the midst of an "interminable wood." There is a forest on every side of us, coming right down to our city and extending back indefinitely. Within one league of the city there are hundreds of acres of land that is now producing no income to its owners, but which would be excellent land for cultivation if the trees were cleared away The timber on these lands is mostly fir, though there is some ash, maple and oak.

Along the river, both above and below the city, and within a few miles of our wharves, there is an abundance of oak, ash and maple, which is quite accessible, and whence we obtain what hard wood we use.

We pay for fir wood, cut up and ready for use, from five to five and a half dollars per cord, and for hard wood from six to six and a half dollars These prices are said to be as low as the wood can be furnished, and after some investigation we are inclined to think that lower figures would leave no margin to the seller. The cost of cutting, carrying and hauling runs up nearly to the figures which the consumer pays—at least, approximates sufficiently near to them to allow the dealer in wood to realize only moderate returns upon his investment of money and labor And yet we pay higher prices for wood than those that rule in many places which have not such vast amounts of the commodity at command

If we wish to substitute coal for wood, for domestic purposes, we find upon counting the costs that we augment rather than diminish the expense, by so doing For a ton of coal we must pay sixteen dollars, and then we have an amount of fuel about equal to one and three-fourths cords of hard wood By a very simple arithmetical process, we reach the conclusion that coal is dearer than wood unless we can obtain the coal for about eleven dollars per ton

It is claimed that coal can be laid on the wharf at Portland from Coos Bay, for seven to eight dollars a ton. It costs only four dollars, on board the ship at Coos Bay It should seem that three or four dollars ought to pay for carrying the coal from there to Portland Two dollars more would be ample for the retailer. This would make an aggregate not exceeding ten dollars per ton as the cost to the consumer in Portland This, of course, presumes a sufficient trade with the Coos Bay country to give freights to that place for the vessels that bring away the coal, which many persons insist would spring up immediately

The Massachusetts Historical Society has recently been presented with the identical cane with which Mr Brooks of South Carolina caned Mr Sumner The Society received the cane with appropriate ceremony It is not stated whether this is to be regarded in the light of a trophy won by Massachusetts from the Democracy in the final issue of the slavery struggle, which caused the cane to be used as it was, or as a trophy won by the Democracy from Massachusetts in the final capture of the distinguished Senator by contact with whose magnificent brain this dead stick was made immortal At all events, Massachusetts now owns the cane the party of freedom is no longer disowned by South Carolina, and the distinguished Senator from Massachusetts has given his parol to the Democracy

The *Daily Enterprise* of the 6th inst estimates the Republican majority on joint ballot in the Nevada Legislature at thirty two, but says though there may be some variations from its estimates, there can be no doubt of a very handsome Republican majority

Massachusetts is already speculating upon the question of Senator Wilson's successor It is supposed that if Secretary Boutwell will consent to have his name used in connection with the position his election will be probable but it is not known that he would accept if elected Mr Dawes is also mentioned but it is supposed by some that his position in the House as an acknowledged leader is more satisfactory to him and his State than a place in the Senate as a member elected to fill out an unexpired term

A *Times* Washington dispatch of Oct 31st says the Secretary of the Treasury on Oct 7th issued four or five millions of dollars of the forty four millions reserve The Secretary considers it left to his discretion whether the reserve shall be issued, but he does not propose to issue it unless there shall arise an emergency clearly demanding its issuance

Alexander J Watts Esq member of the Republican State Central Committee for Josephine county writes to C W Parrish Esq Chairman, that returns are not in from all the precincts of that county, but enough have been received to give assurance that the county has gone Republican by from ten to fifteen majority

The Postmaster General has issued a circular stating that it is the duty of postmasters to register, without fee, all letters delivered to them to be mailed, containing old postage stamps or mutilated currency for redemption, in accordance with the law upon that subject

Sacramento county, which usually throws about eight hundred Republican majority, last Tuesday gave a majority against the regular Republican nominee for Congress

The Republican majority in Clatsop county is one hundred and twenty six

THE TERRITORIES

McFadden's majority in Washington Territory, as far as heard from, is 801

The Denver (Col) *Tribune* of the 30th ult, says that snow storms are of daily and nightly occurrence in the mountain cities

Colorado has caught the diamond fever, and professes to have discovered a deposit of the gems which rivals the famous Diamond Valley of Sinbad the Sailor

Three stages, carrying twenty eight passengers, left Olympia at 9 o'clock last Saturday morning for Tenino, on their way overland to the Columbia river.

"Alaska boas" are announced by furriers. This gives color to the statement made by a recent traveler in the Yellowstone region concerning rattlesnakes with hair on them

Thursday night of last week, witnessed one of the most violent storms ever witnessed in Olympia Rain in torrents was accompanied with wind in fierce blasts, both uncomfortable

The sloop *Shark* or Seabeck, with two men in her, went ashore on Point Ringold, Thursday of last week, at 9 o'clock When the boat struck the beach, the shock knocked one of the men in to the surf, but he was saved The other man clung to the wreck and was rescued also

Recent geological surveys of the new Territories of the far West have revealed the important fact that the known coal deposits of the Rocky Mountain region extend over an area of upward of two hundred and fifty thousand square miles, in strata varying from five to thirty five feet in thickness

An attempt was made to assassinate Dr C. V Calhoun, of Port Townsend, last week He was sitting in his office with a few gentlemen, when, without a previous sound of warning, some one outside fired through the window, the ball passing within a foot of Dr Calhoun's head It struck the fire place, and was thrown to the floor A startling sensation was produced in that little crowd, and an effort made to discover the person firing the shot It was too dark, however, and the search proved a vain one

The *Courier* says On Wednesday evening of last week, a fatal stabbing affray took place at Port Townsend, between John Quail, known all over the Sound as "Poker Jack," and John Thompson of Port Discovery, which resulted in the death of the latter It seems that there had been an old grudge between them in relation to a gambling transaction, which was the cause of the present difficulty On Wednesday both parties had been drinking and Thompson was quite drunk They went into a restaurant for supper, when some hard words passed between them regarding a hat that lay in a chair, when the proprietor requested them to go out and cease their quarreling They then walked out still quarreling, when Quail slapped Thompson in the face Thompson then attacked Quail with a pocket knife, cutting him badly in the face, when Quail drew a large bowie knife and stabbed Thompson several times in different parts of the body—one stroke penetrating and severing the heart Quail was released on a thousand dollars bail, to await the action of the grand jury

From the New York *Times* of November 1st, we take the following

The thirteenth annual meeting of the American Home Missionary Society was held yesterday, in the Sunday school of the Church of the Ascension From the report of the Financial Secretary and General Agent, Rev W A Newbold, it appears that during the year, money or money's worth was sent to missionaries amounting to $4,670 06, an increase of $879 04 over last year.

The Children's Society is in a very flourishing condition, and through treasuries, medals, certificates, etc, has contributed $9,000 during the year

The Treasurer's report shows that the receipts for the past year have been, for all purposes, $53 938 65 expenditures for missionaries, special objects, publications and general expenses amounted to $18 461 35—leaving a balance in the treasury of $5 913 05 which included a balance from last year of $438 75 Fifty missionaries have been in commission during the year The present number in the field is forty four

Funerals under Difficulties—One of the most melancholy effects of the epidemic among horses in Boston results from the difficulties which undertakers experience in obtaining horses for funerals A burial took place on Saturday when it was found impossible to procure a single carriage to follow the hearse the hackmen being unable to go out to one of the rural cemeteries At another funeral only six carriages could be found, though fourteen were ordered In one instance a coffin containing a corpse was conveyed through the streets in a hand cart One case in particular seemed very sad A young lady died on West Newton street, and on Saturday afternoon, the family were obliged to have the funeral take place But carriages could not be obtained for any consideration, and the only mourner who went with the remains to the grave was a brother, and he was obliged to take a seat with the driver of the hearse

Says the N Y *Tribune* There seems no limit to the judicious benevolence of Mr Corcoran Not contented with the noble charities he has already endowed in Washington and the institution for the cultivation of art which owes its existence to his taste and generosity he has recently signified to Dr Welling the President of the Columbian College, his intention to contribute to the endowment of that institution the proceeds of a valuable tract of land 100 acres in extent in the vicinity of Washington The property is known by the name of Trinidad and is estimated to be worth at least a quarter of a million of dollars He is thus deriving from his great wealth the highest gratification which it is capable of bestowing Following the dictates of his own generous nature he is at the same time laying the foundations of the widest and most enviable renown

Robert Bonner announces in the *Ledger* that he has no expectation of retiring from the conduct of that journal "until he retires from the world"—newspaper reporters to the contrary notwithstanding.

OREGON

The Wallamet river was rising rapidly at Salem on Monday night Some considerable drift wood had been started by the flood

Rev Father J DeCrane has been appointed to the charge of St John's church, in Salem, in place of Father Goens who is in failing health

A milliner's store kept by a lady has been added to the attractions of Hillsboro and the Washington county girls are beseeching their papa's for new bonnets

Col J L Meek of Washington county better known as "Old Jo Meek" will start for the Eastern States in a few days Mr S A Holcomb of the same county will start soon on the same trip

Rev Dr Hill, of Albany is canvassing the State for aid for the college at McMinnville The institution is a deserving one and finely located, and we trust sufficient aid will be given to place it on a good financial basis

We learn that the Medical College of Salem is prospering finely The regular course of lectures—six a day, by the Faculty—are going on regularly, with a large class in attendance The founders of this department have every reason to be satisfied with the past and present, and hopeful for the future

The steamboat *Onward* is making her way up the Tualatin river, and her whistle was heard at Hillsboro yesterday This we understand is her first trip this season and will naturally be a lengthy one as there were several large drifts lodged in the river which she has been compelled to remove before she could get up

While J B Bingham, of the firm of Cornelius & Bingham, real estate agents at Cornelius was returning home from Hillsboro on last Monday evening, the team which he was driving ran away and threw him on the ground, one wheel of the wagon running over him The team had not been heard of when the cars left Hillsboro the next day.

A short time since the OREGONIAN published an item for S J Foster inquiring for information concerning one James W Smith Our Washington county correspondent writes as follows "If S J Foster will come into Washington county, we will furnish her with half a dozen James W Smiths, and as many more of the Smith family as may be wanted "

WEDNESDAY MORNING NOV 13 1872

CITY.

IMPROVEMENTS ON THE UPPER COLUMBIA —Capt West of the Corps of United States Engineers under the supervision of Major Robert will start for the Upper Columbia this morning Capt West will probably be absent two months The principal object of his visit will be to exercise a general supervision of the work of improving the channel of the upper Columbia river at John Day and Umatilla Rapids both of which contracts are to be completed by the first of next January His first duties will be on his arrival at John Day Rapids, to determine the general level of the rock a portion of which is to be removed He will not be able to perform this work until the completion of the boats now in process of construction The average depth of the water will be ascertained by measurement at different points the mean level determined and a 'bench mark, in technical parlance, made on the shore This mark will enable the contractor, Mr J B Montgomery, to determine how to prosecute the work and when the required depth has been reached in blasting and cutting through the rock, which forms the principal obstruction to the navigation Two large scows are being built at John Day Rapids and will be completed in a week When these scows are finished Capt West will make the necessary observations, and active operations, in opening a channel, will be inaugurated there after, and prosecuted as rapidly as possible. Materials for two more large scows have been conveyed to a point opposite Umatilla Rapids Workmen who are at present engaged in constructing the boats at John Day Rapids, will start immediately for the former place, as soon as the scows are launched at the last mentioned rapids Two more scows at the Umatilla Rapid will be in readiness in a few weeks The same observations will be made at that place by Capt West, and work will be commenced without delay soon after By these expeditious arrangements, operations can, and will be carried on at the two points simultaneously Large forces of men have been employed, and the utmost efforts will be made to bring the work to a speedy consummation before the rise of the river, and the snow and ice can impede the progress of operations Until the completion of the contracts at the two mentioned rapids, operations will not be inaugurated at Devil's Bend, the remaining point as designated by Major Robert where the channel needed improvement Should the stage of the water admit, work will be commenced at Devil's Bend when the improvements have been made at the other places mentioned As the contractor is allowed until the first of next April to finish all his contract, operations will likely be suspended until the opening of spring

PISTOL SHOTS —Some time during last Sunday night four pistol shots were discharged through one of the windows of the Council Chamber Appearances of the window would indicate that some Chinaman had stepped to his back stoop—the window overlooks the principal Chinese quarters of the city—and discharged a pistol at random in the dark The slight damage could hardly be otherwise than the result of accident, as no one could hardly be so reckless as to commit intentionally such a piece of wanton disfigurement to the window. Three of the balls passed through one of the large panes of glass at the top of the window, and the fourth shot penetrated a pane near the lower part of the sash The force of the shot must have been about spent before the glass was reached for the plastering was not disturbed in any part of the room Not even the slightest indentation could be discovered on the walls, nor could the balls be found after a careful search through the chamber Another singular fact appears in connection with these shots, and that is, the repeated discharge of the pistol was not heard by the police, or did not attract public attention at the time The mystery—if indeed any attaches to the circumstances—will probably be solved soon.

SWAN ISLAND —Operations by the dredger at Swan Island, in opening a channel through the bar, have been going on at intervals for a number of years past. At the time Major Robert took charge of affairs on the northwest coast, a channel had been cut some distance in the bar, but was finally abandoned on a more careful re survey of the channel A new cut was commenced, and, we are informed, is completed at last The channel which has been cut by the slow process of dredging, is one mile in length, one hundred feet wide on an average, and commands a depth of 17 feet at the lowest stage of water. Near the upper end, the cut is about 120 feet wide It is the intention to remove a large quantity of sand at that end, so as to enlarge the mouth of the channel and make it bell shaped By means of digging away the sand in the manner proposed, the channel can be kept clear of deposits or other obstructions by the action of the current The banks being made to converge in their course, a greater quantity of water can be caused to flow through. Three weeks' work with the dredger, it is thought, will be sufficient to cut the proposed opening to the channel The entire work at Swan Island Bar will then be completed, and operations with the old dredger will close for the present season

AMERICAN SHIP ZOUAVE —The American ship *Zouave*, Capt H E. Swain, commanding, arrived at this port last Sunday, from Kalama The *Zouave* was built at Richmond, Maine in the year 1862 She is 182 5 feet long between the perpendicular, beam 37 8 feet, and 23 4 feet hold The registered tonnage is 1 202 tons She can carry with ease 1 700 This vessel is in splendid sailing condition, and although ten years old is staunch and perfectly seaworthy The *Zouave* is prepared to receive cargo as soon as a load can be obtained She is under charter to Rogers, Meyer & Co to carry a load of wheat to Liverpool

OIL HOUSE —The old oil house which has been attached to the lighthouse at Cape Disappointment for some years past, will soon be torn down and a larger one erected at a cost of several thousand dollars The old house had been deemed for some time inadequate to answer the requirements of the lighthouse. Report to that effect was forwarded to Washington some time since and an estimate made of the cost of a new and larger building In accordance with the recommendation, an appropriation has been made by the Government, and work on the new oil house will be begun at once.

ACCIDENT —A Mr Gill, employed at the wharf of Moffett & Stephens, which is undergoing some repairs, met with a severe accident yesterday With several other workmen he was in the act of lifting a heavy piece of timber Something suddenly gave way and the stick descended, striking Mr Gill a severe blow on the head The injuries are not dangerous, but are severe and will confine him to his house for a few days

LOAD WITH IRON —The bark *Webfoot* will be towed down to Astoria to day This bark will receive a cargo of railroad iron at that place The iron is the same which was discharged by the ship *Siam* The *Webfoot* will not be able carry all away at one voyage She will carry the remainder to San Francisco at a subsequent voyage, or the balance will be shipped below on some of the coasters

ARRIVED —The steamer *California* arrived at port yesterday morning from Victoria She brought several passengers and a full freight A rough and boisterous passage was experienced. No stone was brought for the Custom House in consequence of the vessel touching at Nanaimo The *California* reports a bark off the bar as she came over

FROM THE NORTH —The following passengers arrived by the steamer *California* yesterday morning from the north D Smith, wife and 2 children, Miss Fannie Bailey, Charles Nickerson, Miss Francis, Lawrence Higgins

HOISTED —The locomotive 'Junction ' and her tender were both hoisted from the deck of the *Webfoot* and placed on the east side wharf yesterday afternoon. They will be taken to the car shops to-day

BOUND FOR WESTPORT —The bark *Jane A Falkinburg* will proceed in a few days to Westport and complete her cargo for Honolulu with cotton wood bolts She is still lying at Astoria

STILL DETAINED —At last accounts the bark *Forward* and ship *Siam* were still detained at Astoria unable to pass to sea on account of the continued rough weather off the bar

ARRAIGNED —A number of persons will be arraigned this morning in the U S District Court on various charges for which the grand jury has found bills of indictment

FALL OF SNOW —Capt John Wolf, of the *Emma Hayward* informs us that snow fell Tuesday night at the Cascades to a depth of six in.

LOCAL BREVITIES

Common Council

Warmly lined gloves are comfortable

"The Detective" is the theatrical rage now

Windy and cold last night plenty of moonshine

Snow still lingers on the roofs of buildings and adjacent hill tops

Steamer *California* will depart for the Sound next Saturday evening

The thermometer yesterday [illegible] A M , 32° 2 P M [illegible] 5 P M [illegible]

A farmer was peddling Thanksgiving turkeys through the city yesterday

The pile driver is at work at the wharf of Messrs Stephens & Moffatt

The steamship *Oriflamme* is announced to sail for San Francisco next Friday evening at four o clock

A handsome plate of wax fruit and flowers will be raffled for next Saturday evening at the River side Saloon

The steamer *George S Wright*, owing to the prevailing rough weather at the mouth of the river, did not cross the bar until Sunday evening, although she left this port for Sitka on Tuesday last

Our devil says the fashion of stripping ladies' bosoms in the ball room, and allowing about half their dresses to drag on the floor is more heathenish than the Hottentots, who don t wear any clothes at all For his part he prefers the Hottentot costume for dancing because as he says, "a feller isn't so apt to be tripped up by dry goods"

INTERNATIONAL EXHIBITION AT PHILADELPHIA—1876

A meeting of the Centennial Board of Finance, for the State of Oregon, was held at the office of ex Gov Gibbs, to make appointments of the agents of the Commission, for securing subscriptions to the stock in this State The following persons were appointed C C Beekman, Jacksonville, W S Ladd, Bank of Oregon, Henry Failing, First National Bank, and A H Brown, of Baker county These agents will receive subscriptions of stock of the Centennial Board of Finance As has heretofore been noticed, the object of this corporation is to provide for celebrating the one hundredth anniversary of American Independence, by holding an International Exhibition of Arts, Manufactures and Products of the soil and mine, in the city of Philadelphia, in the year 1876 This Board acts in harmony, and co operates with, the Commission created by act of Congress, March 3d, 1871. By that act, James W Virtue and Andrew J Dufur, are Commissioners for Oregon And the following named persons were the Board of Finance for the State, by act of Congress of June 1st, 1873 A B. Meacham, S Ellsworth, T McF Patton, L F Lane A C Gibbs and A H Brown. The shares of stock are to be $10 each, allotted to each State, according to population The stockholders will elect the permanent officers, and agents of the corporation who will erect the building at Philadelphia, and with the other Commissions, will regulate the price of admission, and make other arrangements in detail for the great occasion Certificates of stock are to be issued by the Secretary of the Treasury of the United States, and furnished to each subscriber when their subscriptions are paid The capital stock is $10,000,000, and after the exhibition is ended, property disposed of and dividends declared upon the capital stock, each stockholder will receive his share of the profits, if any Thus, Oregon has an opportunity to join with her sister States in celebrating this great anniversary, and the men selected to receive subscriptions to the capital stock, are worthy of entire confidence When the stock-books are received by the agents, above named, we will allude again to this important subject.

A venire of 4 additional jurors ordered and returned to day. Ten more ordered, returnable to morrow morning 13th, at 9 o'clock

L D Shattuck et al vs J S and W K Smith, action at law; on trial

A SLANDER REFUTED.

In the *Coast Review*, an insurance journal published in San Francisco, for November, 1872, appears the following

> "We also have complaints of one D A Lancaster of the Equitable, who recently insured Mrs Van Tyne for $10 000, ten year endowment, and collected $1,000 premium the first year under the promise that her second year s premium would be $800, third year $600 and so on, in other words that she would get $10 000 at the end of ten years by paying $3 000 in premiums

As I am the Mrs Van Tyne referred to in the above extract, I wish to say that the statement is unqualifiedly false in every particular.

I made an application for $10,000 endowment policy at the office of the Equitable, in San Francisco, and no representations were made that I have any reason to believe untrue No amount whatever was collected on the first year's premium, and when the policy arrived, having been compelled to use my funds elsewhere, I was reluctantly compelled to decline it, and it was returned without any payment having been made on it

MRS C VANTINE.

Portland, Ogn , Nov 12, 1872

LEGS BROKEN —A team attached to a heavy wagon, became frightened at Kalama last Saturday and ran away The driver, a man named McGinnis, was thrown headlong to the ground, and the team and wagon wheels passed over his body Both of his legs were broken, one above and the other below the knee, and other injuries received Hopes are entertained of his recovery, but the injuries are of a character which will require skillful treatment

BOAT RACING —The steamers *Fannie Troup* and *Vancouver* made another test of their speed yesterday morning between the mouth of the Wallamet and this city The race commenced opposite the mouth of the Wallamet Slough, about ten miles down the river When the race began the *Vancouver* was some distance astern, but after a lively and exciting race the boats were even when they came opposite the O S N Co's wharf

GOES DOWN —The bark *Red Deer* will be towed down the river to day by the *Dixie Thompson* This steamer was receiving a load of wheat yesterday which will be transferred to the bark when the St Helens bar has been crossed The cargo of the *Red Deer* will then be completed

TEMPORARILY TAKEN —Purser Ingalls, of the steamer *Emma Hayward*, in consequence of indisposition, is unable to attend to his duties Mr Williams, one of the Company's freight clerks will take Mr Ingalls place temporarily

PILOT ON BOARD —The bark *Nonantum* is reported off the bar with a pilot on board She may be expected to arrive in a few days

IF YOU have not already ordered a fall or winter suit, you should do so by [illegible] The work turned out by J O Neil & Co [illegible] First street [illegible] by gentlemen [illegible] A No 1 [illegible] the material is usually of the very best quality [illegible] for new goods [illegible] improvements have been made [illegible] they keep the best furnishing goods make fitting [illegible] goods at prices [illegible] favor [illegible]

SELECT DISCOVERIES —The secret of dressing is not so much in expensive clothing as in the perfect fit of the garments This fact is thoroughly understood by [illegible] & [illegible] corner of First and Washington streets hence their popularity among gentlemen Their stock is complete in every department If you would keep warm during the coming winter delay not in selecting suit [illegible] winter goods You will certainly experience no trouble in selecting from the new goods recently received at their house Those who have once dealt with them rarely ever change for another Fair dealing and courteous manners make business

AMUSEMENTS.

The first representation of 'The Detective' last evening at Oro Fino Theater drew a good house The play is the production of Mr. R H Cox a member of the company Each character in itself keeps the audience deeply interested Mr. Waldron, as The Detective, assuming a number of characters two of which are close copies of those personated by Mr Cox, so much so that many do not discover for some time the difference Mr Vinson as the Jew, enacts his part to perfection and the same can be said of Messrs Cox, Crosbie Fulford and others The scenic effects are gotten up with great pains and although working badly last night drew forth rounds of applause The depot and fire scenes are the best that have been placed upon the stage of this theater To night defects will be remedied and until further notice, The Detective will be working smoothly and drawing large houses, we have no doubt.

Mr Charles Vivian the inimitable and unsurpassed song and character man, will give one of his choicest entertainments at the new Masonic Hall this evening He has consented to give this public one more opportunity of witnessing his extraordinary sketches of humorous characters at the urgent request of numerous prominent citizens of Portland The entertainment will be diversified with various musical exercises, both musical and instrumental, in which a number of our leading amateurs will take an active part Mr J B Wyatt the accomplished musician will assume the baton on the occasion The programme promises to be of an unusually attractive character This will be the last opportunity afforded our citizens of testifying in a substantial manner their appreciation of the artistic qualities of Mr Vivian He is above and beyond the mere actor, and is entitled to the appellation of artist The entertainment this evening will be his farewell performance before starting overland for California. Mr Vivian, in his humorous, and often ludicrous sketches never descends to the low and vulgar There is nothing in his songs, actions or funny sayings, which leaves unpleasant reflections, or grates harshly on the most educated or refined ears He is brim ful of fun—not that kind which excites coarse minds to rude laughter but real, genuine, sparkling wit, that which affords innocent merriment but never panders to vitiated tastes His entertainments contain all that can impart pleasure to the heart and song to the soul Give him a crowded hall and show that the citizens of Portland appreciate the artist who pleases edifies and interests, but who never substitutes coarse vulgarity for refined wit

FASHIONABLE NOTES.

A new and very fashionable shade of color is known as neutor

Monkey skin (think of it) will be a fashionable fur next winter

Spotted short veils or veilettes have quite gone out of fashion

The latest place for monograms is in the corner of ladies veils

Alligator leather is a fashionable material for gentlemen's walking boots this winter

A very pretty house jacket has the very pretty name of *coin de feu*, the chimney corner

Diamonds are now to a great extent set in full filigree work, the effect produced is very beautiful

Sixty five new colors in dress materials have been introduced to the notice of the feminine world this fall

The most fashionable bracelets now worn are made to twine around the arm and require no clasp

Tight fitting sleeveless jackets of velvet will be much worn over street costumes of silk during this month

A new kind of fur rejoices in the euphonious name of the *skunga* It resembles Canadian marten, but is much cheaper

Chignons are growing higher every day Full dress structures on ladies heads are architecturally grand, Castles in the air, in fact.

Among the fashionable ladies of Paris hoop skirts have disappeared entirely, and have, for a time at least, been regulated to the shades which contain the Dunstable bonnet and other fashionable fripperies of the past.

PERSONAL.

The San Francisco papers note the arrival at that city of Hon James K Kelly and Joseph G Wilson Both are now on route for Washington.

John Dolan, Esq , the present efficient County Assessor, took his departure overland a few days ago for California. He goes on a pleasure and business tour to New York, and will be absent until after the holidays.

Hon Aaron E Wait, one of the oldest practicing lawyers of the State, and Chief Justice of the Supreme Court of Oregon for several years before its admission to the Union, will take his departure from the State on the steamer *Oriflamme* Mr Wait will take up his winter residence in some portion of Southern California He has been induced to change climates by the constant failing health of his wife Should the more genial skies and balmy air of that section bring the boon of health sought for, it is probable California will become the future home of Judge Wait and his family The best wishes of the many friends of Mr Wait and his estimable lady will accompany them to their future home

The old saying is "What everybody says must be true, and everyone says that Beck & Waldman have the largest and best selected stock of the latest styles and patterns in gentlemen's Clothing and Furnishing Goods in the city of Portland They have the largest variety of Boy's Youth s and Children s Suits, all which will be sold according to the times Please call and satisfy yourself that we will not be undersold by anyone.
BECK & WALDMAN,

The Key to Health
It is the easiest thing in the world to lose the blessings of health but when lost it is not easy to regain it The popular idea of fifty years ago, that a tremendous scouring of the bowels was an essential element of cure in almost all diseases has fortunately for mankind been pretty effectually exploded The introduction of Hostetter s Stomach Bitters, nearly a quarter of a century ago, may be said to have given the *coup de grace* to drastic purgation The world has learned from the beneficial effects produced by that admirable preparation that one medicine may embrace the three properties of a tonic a laxative and an alterative; that the three curative processes of invigoration purification and regulation may be compassed at the same time by the operation of a single agreeable remedy There are sound philosophical reasons for the remarkable improvement which the Bitters occasion in the condition of a deranged and enfeebled system This pure combination of vegetable juices not only strengthens the stomach stimulates the appetite and braces the nerves, but also imparts tone and vigor to the secretory organs—as the skin the liver and the kidneys—and if the blood has become too thin and watery to nourish the body properly, enriches and vitalizes that raw material of all the solid portions of the frame At this period of the year, when intermittent fevers, bilious disorders, stomach complaints and dysenteric and diarrhoeic ailments are always more or less rife, occasional doses of the Bitters will be found the best safeguard against the atmospheric conditions which generate them An accession of general vigor is necessary to enable the system to resist the morbid influence of the malarious vapors which rise from the earth at this season and of all the known invigorants Hostetter s Bitters is the safest and the most potent

PLANTATION BITTERS !
S. T.--1860--X.
This wonderful vegetable restorative is the sheet-anchor of the feeble and debilitated. As a tonic and cordial for the aged and languid it has no equal among stomachics. As a remedy for the nervous weakness to which women are especially subject, it is superseding every other stimulant. In all climates, tropical, temperate or frigid, it acts as a specific in every species of disorder which undermines the bodily strength and breaks down the animal spirits.

MEXICAN MUSTANG LINIMENT;
FOR MAN AND BEAST.
Probably few articles have ever had so extensive Sale, while none have been more universally beneficial than the MEXICAN MUSTANG LINIMENT Children, Adults, Horses and Domestic Animals, are always liable to accident, and it is safe to say, that no family can pass a single season without some kind of an emollient being necessary. It becomes a matter of importance then to secure the best.
Over three hundred livery stables in the city of New York alone are using the MEXICAN MUSTANG LINIMENT, in all of which it gives unusual satisfaction
CAUTION —The genuine is wrapped in a fine *Steel Plate* engraving with "*G W Westbrook, Chemist,*" and "*Trade Mark, MEXICAN MUSTANG LINIMENT,*" engraved across the face of each wrapper. The whole bears the proprietor's private United States Revenue Stamp, and not a common stamp, as used by druggists

San Juan Island Correspondence.

LOPEZ ISLAND, Oct 26 1872

To the Editor of The Oregonian

It is not often that you have communications from these islands, which, in my opinion, is a great drawback to them I think it to be the duty of those who are capable, and who are acquainted with the section of country in which they reside to lay its interest and wants before the public It is a well known fact that a newspaper patronizing community will always be found in a flourishing condition, and generally far ahead of those who neglect to take a paper, or to correspond with any It is like merchants, who believe in generous advertising, and others who will not advertise at all The one reaps the benefit of his advertisements by selling his goods, while the other on account of his closefistedness keeps them on his hands, at the same time wondering how it is that his neighbor whose goods are the same as his own, should be selling them off faster than himself, and keep improving his business while he is under the enormous expense of advertising. But here lies the secret, let the public know through the press what the advantages are of your locality, and success will be your reward.

THE BOUNDARY QUESTION

The greatest drawback to these islands is the unsettled boundary question, and every one awaits with great eagerness the day which will bring to us that most interesting news, "the settlement of this vexed question" This, according to rumor, is not very distant The resources of the islands are, at present, in an almost undeveloped condition, for those who have means withhold them on account of the uncertainty as to which Government will have possession of them hereafter As soon as this fact is known, there will be a rush of settlers with capital to invest, and in a few years one of the most flourishing and wealthiest communities will be found on these very islands

SOIL AND PRODUCTS.

The soil is, for agricultural purposes, equal to any on the whole Pacific slope Vegetables of all descriptions are raised to great perfection I have seen cantelopes and melons which would be a credit to warmer countries, grown on these islands, and without ever being covered with anything at night during the whole season Other vegetables which are of tender nature are also raised here, though there are seasons when they will not come to maturity. This, however, is seldom the case. Grain and grass is raised here equal to any on the coast, while the pastures are unsurpassed both for cattle and sheep. Fruits also do remarkably well, and even better than in some localities on the mainland or Vancouver Island, if we except peaches. These will not ripen on account of the coolness of our nights. A few enterprising farmers are now experimenting with grape vines, and are very confident of success.

THE CLIMATE

differs very much from that of the main land This may be accounted for in two ways first, the formation is altogether different, for these islands are not so heavily timbered as the main land, nor are there any large streams or other large bodies of fresh water, which are the real cause of heavy fogs and mists, and from these we are in a great measure free; and often one can stand on the shores of any of the islands and have a bright sun above, while all the outside world appears to be enveloped in a dense fog. It is also considered that the location has something to do with this. The large bodies of water, with the many different and strong currents setting in through the Straits of Fuca on one side, and the Gulf of Georgia on the other, are all supposed to have an influence in causing the climate to be drier and warmer. Whether such is the fact, I am unable to say, but I am aware that there is a great difference in the climate, let the cause be what it may.

POLITICS.

The Republicans are fully aware in these islands to whom to look, and who to trust, and take more interest in the election, than in any of the previous elections, and will turn out in full force. There are not many down here who care about investing in Greeley stock, which is much below par on these islands.

ISLANDER.

The Power of the Affirmative.

The power of positive ideas and the power of the positive affirmation, and promulgation of them move the world. Breath is wasted in nothing more lavishly than in negations and denials It is not necessary for truth to worry itself, even if a lie can run a league while it is putting on its boots Let it run, and get out of the way. A man who spends his days in arresting and knocking down lies and liars will have no time left for speaking the truth. There is nothing more damaging to a man's reputation than his admission that it needs defending when attacked. Great sensitiveness to assault, on the part of any cause, is an unmistakable sign of weakness. A strong man and a strong cause, need only to live an affirmative life, devoting no attention whatever to enemies, to win their way, and to trample beneath their feet all obstacles that malice, or jealousy, or selfishness throws before them The man who can say strongly and earnestly "I believe," has not only a vital and valuable possession, but he has a permanent source of inspiration within himself and a permanent influence over others. The man who responds "I do not believe what you believe," or "I deny what you believe," has no possession, and no influence except a personal one.

In nothing is this principle better exemplified and illustrated than in the strifes of political parties. The party that adopts a group of positive ideas, and shapes a positive policy upon them, and boldly and consistently affirms and promulgates both ideas and policy, has an immense advantage over one which undertakes to operate upon a capital of negations The history of American politics is full of confirmations of this truth No party has ever had more than a temporary success that based its action simply on a denial of a set of positive ideas held by its opponent. The popular mind demands something positive—something that really possesses breath and being—to which it may yield its allegiance. There is no vitalizing and organic power in simple opposition and negation Earnest, straightforward affirmation has a power in itself, independent of what it affirms greater than negation when associated with all the influences it can engage

The Author of Christianity understood this matter. His system of religion was to be preached, proclaimed, promulgated. Its friends were not to win their triumphs by denying the denials of infidelity but by persistently affirming, explaining and applying the truth. With this system of truth in his hands—so pure, so beneficent, so far reaching in its results upon human character, happiness, and destiny—the Christian teacher commands the position. Infidelity and denial can make no permanent headway against faith, unless faith stop to bandy words with them. That is precisely what they would like, and what would give them an importance and an influence which they can win in no other way. Why should an impregnable fortress exchange shots with a passing schooner? Silence would be a better defense than a salvo and deprive the schooner of the privilege of being reported in the newspapers The world whirls towards the sun, and never stops to parley with the east wind The great river, checked by a dam, quietly piles up its waters buries the dam, and, rolling over it, grasps the occasion for a new exhibition of its positive power and beauty. The rip-rap shuts an ocean door, but the ocean has a million doors through which it may pour its tides. Stopping to deny denials is as profitless as stopping to deny truths. It is consenting to leave an affirmative for a negative position, which is a removal to the weak side

So a man who has really anything positive in him has nothing to do but persistently to work and live out If he is a politician or a statesman, or a reformer or a literary man he can make himself felt most as a power in the world, and be soonest of ultimate recognition by living a boldly affirmative life, and doing thoroughly that which it is in him to do, regardless of assault, detraction and misconstruction The enemies of any man who suffers himself to be annoyed by them will be certain to keep him busy The world has never discovered anything nutritious in a negation, and the men of faith and conviction will always find a multitude eager for the food they bear Men will continue to drink from brooks and refuse to eat the stones that obstruct them Even error itself in an affirmative form is a thousand times more powerful than when it appears as a denial of a truth —*Dr. H[illegible] in Scribner's for November*

GENERAL NOTES AND NEWS

The German holders of the Georgia State bonds issued in aid of the Brunswick and Albany Railroad have organized to enforce payment of the interest or to foreclose the mortgage

A lively Washington belle named Rose Potts—what a mingled suggestion of flowers and earthenware!—has raked in a foreign nobleman in the shape of Michel de Messing, of Nijni Novgorod Russia

Indian affairs are becoming more and more complicated A perfidious chief has eloped with a Detroit gentleman's wife and a disappointed squaw has sued a leading merchant of Olympia for a breach of promise

Much excitement has been caused in St Louis by the exposure of frauds in building the county jail, similar to those committed by the Tweed ring in New York Many prominent politicians are said to be involved

The saddest instance of misplaced confidence on record is that of a Connecticut man who rescued another from a watery grave only to find that instead of his long lost brother, it was a person to whom he owed $3 50 for turnips.

Here is a joke almost good enough for Sheridan. Somebody in Kansas attempted to inclose a public road which ran through his farm and somebody else said, "it was one of the plainest cases of highway robbery he ever heard of"

Nast, the artist, receives five hundred dollars a week from the Harpers, and his inimitable caricatures are believed to be worth double that sum to them His cartoons are all traced first by him on wood, and then given to others to engrave

A colony from Alsace is about being established near Kansas City, Missouri, under the auspices of M Hefferium, who returns to France after a recent visit there, for the purpose of completing arrangements for bringing out the colonists.

Forty eight young colored girls from different points in North Carolina, eighteen being from Greensborough, the point where they were shipped, have arrived at Hampton, Virginia, to attend a colored Normal School, where they will be fitted for teachers gratuitously.

One result of the late Franco-Prussian war was to add a fresh impetus to the popularity of champagne as a drink. When the Germans overran the champagne districts of France they found the wine so delicious that, now they have got back to Germany, they cannot do without it Champagne is in more demand than ever.

Manitoba, we have the authority of Canadian papers for saying, manifests an inclination to forsake British allegiance and ally herself with the United States. The blunders connected with the administration of Dominion authority in the Province have developed a strong American feeling, apart from what is incident to a considerable infusion of Americans in the population.

Mirza Sulaiman, a grandson of the ex King of Delhi, has been converted to Christianity and baptized at Bombay. He is a young, poor, and in a worldly point of view, hapless scion of the once famous imperial house of Tamerlane and Akbar. He was despoiled of his earthly possessions after the great Indian mutiny, but may eventually come to shine as a grand Christian light in the East.

A new story in regard to Mr. Lincoln is that when questioned in regard to some of the witticisms attributed to him, such as Grant and the whisky," etc., he laughed and said. "The papers make me smarter than I am, I have said none of these things, with one exception. I did say, when I had the smallpox, "Now let the office-seekers come, for at last I have something I can give to all of them."

The co education of the sexes is making remarkable headway in this country. Four colleges in New England, among them the University of Vermont, Cornell University, in New York, and Swartmore College, in Pennsylvania, Oberlin and Antioch Colleges, in Ohio, the State Universities of Indiana, Illinois, Michigan, Wisconsin, Iowa and Kansas, make no distinctions on account of sex

The aggregate number of periodical publications in the United States is now 6,132, of which 507 are issued daily, 165 tri-weekly, 110 semi-weekly, 4,750 weekly, 21 bi weekly, 91 semi-monthly, 685 monthly, 4 bi monthly, and 65 quarterly In the Territories there are issued 87, of which 18 are daily. There has been an increase since last year of 449 periodicals of all kinds, chiefly weekly newspapers This increase has been largely in the Northwestern States

Within the past month this country has received from Reuss, in Germany, two horrible criminals, one a barber who poisoned his wife and attempted to murder his child, and was sentenced to death, the other a farm laborer who had been convicted of nine cases of highway robbery Those two convicts were released by the Prince of Reuss, as their relatives had promised to furnish the necessary means to send them to the United States It is surely time that this should stop, and that the little Princes of Germany should be made to understand that their criminals must not be sent to America.

THANKSGIVING PROCLAMATION.

Acknowledging the manifold favors which we have received as a people during the year now drawing to a close, and thankful for plenteous harvests, general health and assured prosperity, I recommend to the people of this State the observance of Thursday the twenty eighth day of November, A D 1872, as a day of thanksgiving and praise to the Great Author of all blessings, and that on that day the people assemble in their usual places of worship and "render thanks for the great benefits we have received at His hands"

[L S] In witness whereof I have hereunto set my hand and caused the Great Seal of the State to be affixed Done at the Executive Office, in the city of Salem this 7th day of November, A D 1872

By the Governor L F. GROVER

Attest S F. CHADWICK, Sec'y of State

The Boston Fire—Its Effects

Still the business usually progressing in financial circles stands waiting the result of the Boston catastrophe and far seeing men are perplexed with doubts as to the ultimate effect of such a blow to the general trade of the country and its influence upon the circulating capital That Eastern and foreign insurance companies have lost largely there can be no reasonable doubt, but as far as we can learn at this early day there are but few corporations or persons on this coast who will suffer direct loss to any great extent. The insurance companies of the Pacific which have risks in that city will be able to settle all their losses without embarrassment, and intimations are that foreign offices will be equally prompt But that some of the New England companies will be able to do likewise can hardly be expected, as they in all probability had far greater risks in the ill fated city The Chicago fire brought destruction to several companies, and those that stood that shock were thought to be able to withstand any similar calamity that would in human probability would befall the country But the present disaster will likely bring ruin to others, though this may result in many in point of numbers owing to the fact that the Chicago [illegible] was scattered [illegible] over the [illegible] while that of Boston is supposed to be [illegible] in extent and [illegible] The [illegible] of insurance in Boston [illegible] [illegible] [illegible] fall directly on the [illegible] [illegible] destroy [illegible] the [illegible] [illegible]

The [illegible] the [illegible] will [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] this early [illegible] Wo trust that [illegible] will [illegible] through the crisis and that as the [illegible] of the Queen City of the West it will be shown that the resources of American [illegible] inexhaustible, and the energy undaunted [illegible] the [illegible] of the thorough character which laughs at what are [illegible] [illegible] human [illegible]

Ship Building

The question of building wooden ships in preference to iron has been the subject of some practical investigations which have been the cause of some change that have [illegible] the course of matters somewhat in England In this regard It has been thoroughly settled that while iron ships are nearly double as much as wooden ones, they scarcely last longer and in certain cases of wreck go to pieces much sooner The decline in English ship building the past year is attributed to the practical appreciation of this fact It seems likely that wooden ships will soon regain supremacy for the cheapest built carrier will compete successfully for freight other conditions being equal The steam tonnage of the world is now calculated at 4 [illegible] vessels of 3 030 000 tons, Of this England has nearly two-thirds—2 538 vessels of 2 382 11 tons American ranks second with 420 vessels of 401 043 tons Our own country is the only one which shows a falling off for in 1870 we had 587 steam vessels of 513 702 tons burthen

A recent report of the Wilmington Board of Trade estimates that iron ships and steamers can now be built in the Delaware shipyards at 12 per cent exclusive of the gold premium, of what they would cost on the Clyde It is also stated that this margin of 12 per cent would be entirely removed, if the same inferior quality of iron were used on American vessels as is employed in English steamers

Of the four fine iron steamers being built for the American Steamship Company, by the Messrs Cramp & Son, the second is nearly finished and ready for launching. These vessels, named after the central belt of States, Pennsylvania, Ohio Indiana and Illinois, are all the same in design, dimensions, material, etc.

Oregon's Surplus Wheat

The *Bulletin* of this evening has the following figures in regard to the surplus Wheat now in our State

Adding the amount of Wheat received so far this season here from the interior to the estimated amount in the interior, that will have to be exported, and we obtain a surplus of 90,000 tons In this is included 7 500 tons of last year's Wheat not sold at the commencement of the season. Of the 90,000 tons about 20,000 tons will be manufactured into Flour and exported, leaving 70,000 tons to be shipped in the grain There have been loaded, so far this season five vessels carrying 96 920 centals of Wheat, equal to 4 846 tons there are, on the berth, loading with Wheat three vessels capable of carrying about 3 200 tons which with the amount previously exported make a total of about 8 000 tons leaving 62,000 tons here To market the 62 000 tons, the following vessels are on the way to load

Vessels	From	Tons	Days Out
Br sh *Victoria Nyanza*	Middleboro'	1624	179
Br sh *Victoria Cross*	Middleboro	—	90
Br bk *Barracouta*	Liverpool	—	81
Br bk *Channel Light*	Shanghai	—	54
Br bk *Naworth*	Victoria	—	9
Am bk *Cariboo*	Hongkong	735	10
Gr bk *F Mendelsohn*	Hongkong	998	—
Gr bk *Ilsen*	Sagn eng va V	744	134
Br sh *Whittington*	Aust's vall H	070	—
Tamaya			—
Northumbria			—

Making a total of eleven vessels, capable of carrying not to exceed 12,000 tons, and perhaps not over 11,000 tons, but to make as good showing as we can, we are willing to accept the larger amount, 12,000 tons, which leaves us 50 000 tons unprovided for

Sydney advices to September 28th, report the arrival of the brig *Brewster* from this port, with 500 tons Wheat and 500 cases Salmon It was reported the Wheat cost 6s ₩ bushel laid down, and the best offer received for it was 5s 9d The cargo was to be offered by auction and unless 6s could be obtained it would be stored. Salmon was in good demand at $2 87½.

Since Oct 13th, seventeen whaling vessels of the North Pacific Fleet have arrived at San Francisco with 13,450 bbls Oil and 106,500 lbs Whalebone.

Over 18,000 lbs Ivory have reached San Francisco this season, mostly by the vessels of the North Pacific Whaling Fleet. The vessels of this fleet have generally heretofore wintered in Honolulu, but this year they have, with a few exceptions, come to San Francisco.

No crop has been grown in Oregon the past season with much greater comparative profit than that of Hops

The question is often asked, Why don't Oregon Butter makers produce a better article? The answer is, "They don't try"

Produce Market

Wheat is in full receipt and prices are unchanged, with perhaps a little more firmness in the market. Yet buyers are unwilling to take any risks on advanced rates The markets at Liverpool and San Francisco have undergone no change since the 1st Our quotations stand at $1 40 ₩ cental sacked We hear of no extensive purchases in the interior so far this week, and the impression is that farmers are nearer than ever before coming to the conclusion to store much of their surplus and await events rather than part with it at the low rates now ruling Whether this will enure to their benefit is a very great uncertainty, as will appear by a careful observation of the present supply and demand in the various markets of the world

Flour is in fair supply with a full demand, both for local trade and some orders from Northern ports Prices are firm without change

Oats are not in such large receipt as last week and scarcely sufficient to supply the demand which for home consumption is quite brisk The prevailing rate is $1 45 ₩ 100 lbs

Feed is in good supply Bran is quotable at $16 ₩ ton; Chopped Feed, $—; Middlings, $40 50@48

Barley is very scarce with a limited demand But little has been offered for two weeks, and $1 20@1 25 is the quotation furnished

Potatoes are selling low in sympathy with the markets usually, taking our surplus, and the maximum rate is 75c ₩ bushel

Butter is rather plentier than at the close of last week, but choice still command 45c ₩ lb, while inferior ranges downward to 25c ₩ lb for cooking Cheese is supplied from our near dairies, in quantities almost sufficient to fill the demand for home consumption Eggs are still in demand and 40c is the ruling price for fresh Orders for good could be had with more readiness than the supply coming forward would fill

Shipping Intelligence

The ship *Zouave* is now lying at her berth and will soon begin to receive her cargo of wheat. She is under charter for Liverpool by Hewitt Wilson & Co

The bark *Jane A Falkinburg* is now at Astoria ready to go to sea but awaits better weather on the bar.

The steamer *California* brought to port 310 tons of freight 210 tons of which is coal

The *Oriflamme* will be in here to-night but may not arrive until to-morrow on account of stormy weather on the coast

The Br bark *Red Deer* will go down the river to-morrow and complete her cargo

The Br bark *Grasmere* has commenced receiving cargo, and will have quick dispatch

CITY ADVERTISEMENTS.

Ordinance No. 1250.

AN ORDINANCE TO PROVIDE FOR THE TIME and manner of improving that part of "G" street lying between North Fourth and North Sixth streets.

The city of Portland does ordain as follows:

Section 1 The proposed improvement of that part of G street lying between the west line of North Fourth Street and the west line of North Sixth Street, shall be completed as hereinafter provided, on or before the 1st day of January, 1873

Section 2 The surface of the street shall be cleared of all plank, timbers or other obstacles or perishable materials, (sidewalks of the proper width and cistern covers excepted) If the obstructions are not removed by the owners of the adjacent lots within three days from the service of this notice by the Street Commissioner, they shall be removed by and become the property of the contractor

Section 3 The improvement shall consist of grading, wholly covering the roadway and intersections with plank and putting in box gutters in the intersections

Section 4 The grading shall be such as to present a uniform surface for the planking to rest upon, with which it shall be in contact at every point

Section 5 The bottom plank of the gutter shall be twelve inches wide, the curb and the outside stringer shall form the sides; the outside stringer shall be set, edgewise, and be of such width as to extend to the bottom of the gutter planks, to which it shall be securely spiked

The center stringer shall be twelve inches wide There shall be three stringers eight inches wide laid at equal distances apart between the center stringer and each outside stringer The covering plank shall be not less than eight nor more than twelve inches wide; all plank and stringers used in the improvement shall be four inches thick

The planking of the center line of the street shall be on grade, at the outer end the top of the planking shall be four inches below grade, as near as may be, with a gradual slope to the cross street or cross walk

Section 6 On the intersections with the cross-streets the planking shall be laid as follows

Commencing at a point three feet from the side lines of the street and parallel therewith the planking for a distance of six feet shall extend from the center of the street or cross street across the gutter to the curb on the grade, or as near thereto as practicable to serve as cross-walks, the planking outside of the line above named shall slope to the planking of the street, between the block s and conform thereto.

Between the lines of the crosswalks the planking eight feet each side of the center line of the street or cross-street, shall be laid on the grade.

At the gutters, on a line from the corner of the street to the corner of the sixteen feet flat roadway above described, the top of the plank shall be two inches below grade and slope upwards to the cross-walk and plank roadway

On the south side of the intersections the gutter shall be twenty four inches wide and not less than six inches deep in the clear

The covering plank shall form the top, the sides serve as sleepers and the bottom plank securely spiked thereto.

The stringers shall be eight inches wide, and in no case more than six feet apart

Sec. 7. Under every joint in the stringers or gutter planks, a strip of plank two feet long, eight inches wide and two inches thick, shall be firmly embedded in the earth The stringers and gutter planks shall be sixteen feet in length, as near as may be, and at every joint and stringer the planking shall be nailed with two seven inch spikes to weigh five to the pound All spikes shall be driven at right angles to the surface of the plank, and at least one fourth of an inch below the surface

The joints to be broken alternately, and all the work to be done in a workmanlike manner, and finished up neatly

Section 8 The provisions of Sections 11 and 12, Ordinance No 793, shall apply to all lumber and material used in the improvement herein provided for.

Section 9 The improvement shall be completed to the satisfaction of the Committee on Streets and Public Property, and the Street Commissioner, who shall have the supervision thereof

Passed the Common Council, November 6 1872

W S CALDWELL,

Auditor and Clerk

Approved November 8 1872

PHILIP WASSERMAN,

no9d5t Mayor

Ordinance No. 1248.

AN ORDINANCE AUTHORIZING DEVIATION from the established plan of improving streets

The City of Portland does ordain as follows

Section 1 The Committee on Streets and Public Property are hereby authorized in approving of applications for permits under the provisions of Ordinance No 793, entitled an Ordinance in relation to the Improvement of Streets, to direct the City Surveyor, in setting stakes for plank roadways and crosswalks, to cause the same to conform, as near as practicable, to the system of planking on Fourth street, and to vary the height of curbs for sidewalks so that the same may conform to the grade of the center of the street or as near thereto as they may deem expedient

Passed the Common Council October 30th, 1872

W S CALDWELL,

Auditor and Clerk.

Approved, Nov. 1st, 1872

PHILIP WASSERMAN,

n7d5t Mayor

Ordinance No 1247.

AN ORDINANCE TO CHANGE CERTAIN GRADES of G Street

The City of Portland does ordain as follows:

Section 1 That the grades of G street be so changed as to establish the same at North Fifth Street at 20 3 feet, and at North Sixth street at 20 6 feet above the base of grades

Passed the Common Council October 30, 1872

W S. CALDWELL

Auditor and Clerk

Approved Nov 1 1872

PHILIP WASSERMAN,

n8d5t Mayor

G Street.

SEALED PROPOSALS WILL BE RECEIVED AT the office of the Auditor and Clerk of the City of Portland until 12 o clock M, Friday the 15th November, 1872 for the improvement of G street, in the manner provided by Ordinance No 1250

Bids must state opposite the number of each block, the price per cubic yard for excavation and embankment, and the price per lineal foot for planking the roadway, and for planking the intersections including box gutters.

Each bid must be accompanied with the bond of two freeholders, to the effect that if the contract be awarded to such bidder he will upon its [illegible] awarded enter into contract therefor with good and sufficient sureties for its faithful performance

The right to reject any and all bids is hereby reserved

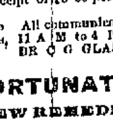
TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary,



623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco Established in 1854 for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

DR GIBBON has the pleasure of announcing that he has returned from visiting the principal Hospitals of Europe, and has resumed practice at his Dispensary, 623 Kearny street, corner of Commercial, San Francisco, where his old patients and those requiring his services may find him

The Doctor has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgence, or from virus absorbed into the system! Look at their pallid emaciated and disfigured faces and their broken down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible, life destroying maladies—see that they are cured for and cured before it be too late. Send them immediately to DR. GIBBON, a physician who has made private disease his especial study for years and who is certain to cure the most inveterate case, without mercury or any injurious drugs It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self abuse. This solitary vice, or depraved sexual indulgence is practiced by the youth of both sexes to an almost unlimited extent, producing with unerring certainty, the following train of morbid symptoms unless combatted by scientific medical measures viz Sallow countenance dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the faces, furred tongue, fetid breath, coughs, consumption night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure Dr G will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions. By inclosing Ten Dollars coin, in registered letter through the Postoffice or through Wells, Fargo & Co, a package of medicine will be forwarded to any part of the Union.

All communications strictly confidential.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who, with bogus sworn-to certificates, dupe the unwary some of the self styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen and became too lazy too work at their trades Some are tinsmiths, shoemakers, newspaper carriers, intelligence office keepers, etc. The only way to avoid imposition is to make inquiry—it will cost you nothing, and may save you many regrets, for, as advertising physicians in eight cases out of ten are bogus there is no safety in trusting any of them until you know who and what they are. Dr Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended patients' letters, etc Dr Gibbon will satisfy persons who may call at his offices of his ability to treat diseases that he proposes to cure.

Address DR J F. GIBBON, 623 Kearney street, corner Commercial, San Francisco, Post Office Box 1,957.

REMEMBER TO PUT BOX 1,957 ON THE LETTER.

Consultations FREE.

Correspondents will please inform DR. GIBBON that they read his advertisement in the *Daily Oregonian*
